All that Ride Continuously

TAKE NOTICE.

It is a well-known fact that nine out of ten of all classes of people whose business calling is railroading, where they ride day in and day out, will sooner or later complain of severe pains in their backs. CAUTION! What does this mean? Ask yourselves the question. We will answer it for you. Your kidneys are fast becoming diseased, and if you neglect them there is one result—CERTAIN DEATH. We have had many cases, and hold testimonials of railroad men that have taken their trouble in time, and by the use of the greatest vegetable remedy that has ever been introduced in the world, viz: THE GREAT SIERRA KIDNEY AND LIVER CURE, have been cured and their kidneys strengthened to such an extent that they can pursue their vocations without fear. This wonderful remedy is becoming daily the most popular of any Kidney and Liver Cure that ever has existed. Give it one trial and you will send to us a testimonial to add to our large and fast increasing list. For sale by all druggists.

CONGRESSIONAL.

The Silver Bill to Come Up Monday.

WAITERS ON A STRIKE.

A Runaway Marriage at Covington, Kentucky.

France's Proposition to Tax Foreigners Postponed.

Congressional Matters.

By Associated Press.]

WASHINGTON, May 3.—The consideration of the silver bill has, by unanimous consent, been postponed until Monday, when it will be taken up and is not to be laid aside until final action is had. The territorial bills go over until after the action on the silver bill.

The Senate passed without amendment the House bill providing for the classification of worsted goods as woolens, and it now goes to the President for his signiture. The vote was a party one—yeas, 32; nays, 20. The Senate then took up the pension appropiation bill.

The House Committee on Pacific Coast Roads to-day postponed final action, Chairman Dalzell declining to report the Senate bill as instructed, and insisting that the Union Pacific and Central Pacific should be on even terms as to interest.

HOUSE.

The House went into a Committee of the Whole on the tariff bill. Dockery of Missouri was the first speaker.

Federal Appointments.

By Associated Press.]

WASHINGTON, May 8.—The President has sent to the Senate the following nominations for the Territory of Oklahoma: G. W. Steele of Indiana, Governor; Robert Martin of Oklahoma, Secretary; E. B. Green of Illinois, Chief Justice; A. J. Seay of Missouri and J. G. Clark of Wisconsin, Associate Justices; W. S. Lurty of Virginia, United States Marshal; H. Speed of Oklahoma, United States Attorney.

The following Postmasters were appointed: Mrs. Clara D'Arcy, at Puyallup, Wash.; J. W. Green, at Los Angeles, Cal.; C. H. Weatherwax, at Placerville, Cal.; S. W. Backus, at San Francisco.

After the Standard Oil Company

By Associated Press.]

COLUMBUS, O., May 8.—Attorney-General Watson has brought suit to take from the Standard Oil Company its charter, for the violation of the laws in various ways. The petition refers to the general State laws against monopolies, and cites the fact that the Standard Oil Company's charter was forfeited before going into the Standard Oil Trust of New York.

Runaway Marriage.

By Associated Press.]

CINCINNATI, May 8.—Shortly after midnight last night William E. Bundy, a nephew of ex-Governor Foraker, was married in Covington, Ky., to Miss Leedom, daughter of Hon. John P. Leedom, late Sergeant-at-Arms of the House of Representatives. It was an elopement, and the story goes that the lovers met only four days ago in a stage coach.

Waiters' Strike.

By Associated Press.]

CHICAGO, May 8.—The colored waiters in Kinsley's and other swell restaurants and in a number of second-classs places have struck for a reformation in the hours of work and wages.

CHICAGO, May 8.—Only the waiters at Kinsley's have struck. The others are expected to strike before next Monday.

Discussion Postponed.

By Cable and Associated Press.]

PARIS, May 8.—The Cabinet has adjourned discussion of the question of taxing foreigners residing in France in order to ascertain whether the existing treaty between France and the various nations provides against such a tax.

Labor Troubles.

By Associated Press.]

BOSTON, May 8.—The building laborers have decided to postpone their contemplated strike until after the meeting of the master masons, at which action is expected upon the men's demands. The pavers voted to work but nine hours after Monday.

Not Guilty.

Special to the GAZETTE.]

SAN FRANCISCO, May 8.—The jury in the case of George C. Pratt, charged with an assault to murder for shooting L. L. Bromwell, President of the California Insurance Co., last January, returned a verdict to-day of "not guilty."

No Agreement Reached.

By Associated Press.]

WASHINGTON, May 8.—The Republican Senatorial caucus this morning was largely attended. The silver question was again the subject of discussion, and again no agreement was reached. The silver men refuse to support a bill containing a clause which will permit the redemption of purchase notes in bullion, under any conditions.

Cannot Be True.

By Associated Press.]

NEW YORK, May 8.—Consul Calve of Chili says it is impossible for the reported theft of $10,000,000 by Chilean customs officers to be true. The customs must be accounted for daily, under very strict regulations; that such a theft would amount to nearly half of the receipts. He thought it was put in circulation to injure the financial standard of the Republic.

Senator Beck's Funeral.

By Associated Press.]

LEXINGTON, May 8.—The funeral services over the remains of Senator Beck were held at noon to-day. Great throngs of people viewed the body lying in state, before the funeral, and at the close of the remarks the remains were conveyed to the cemetery, where burial services were read and the body interred.

A Report Denied.

By Associated Press.]

NEW YORK, May 8.—The *Herald* says Richard Croker's relatives and friends of the family deny that he is dying at Wiesbaden of a cancer of the liver.

WIESBADEN, May 8.—Richard Croker has recovered from his late relapse and is now able to take outdoor exercise.

Must be Sent Back.

By Associated Press.]

BUFFALO, May 8.—United States Commissioner Fitzgerald has given judgment in the case of the three Chinamen recently arrested for smuggling, and held for coming into this country in violation of the exclusion law. He decides that they must be sent back to Canada.

Formidable Labor Movement.

By Associated Press.]

PITTSBURG, May 8.—William Martin, Vice President of the American Federation of Labor, says: The carpenters are having their demands, and the coal miners of the United States will be called out next, about May 15. There are 75,000 of them in the Federation of Labor.

But One Change.

By Associated Press.]

TOPEKA, May 8.—At the annual meeting of the Atchison, Topeka & Santa Fe Railroad the only change in the Board of Directors was the substitution of Levi C. Wade, President of the Mexican Central, for F. E. Peabody.

MORE UNFORTUNATES

Cremated in a Poor-House.

A POOR BASEBALL SEASON.

George William Curtis on Civil Service.

A Proposed Pacific Coast Line Railroad.

Another Cremation.

By Associated Press.]

BINGHAMPTON (N. Y.), May 8.—A special from Norwich, Chenango county, says the poor-house at that place caught fire last night, and seven inmates were burned to death. The fire started in the insane department, which was destroyed, together with a large barn. All the departments were crowded, and but for hard work on the part of the keepers the loss of life would have been something terrible. Loss, $30,000.

UTICA, May 8.—The Chenango county poor-house and insane asylum, located at Preston, was entirely consumed last night. The keepers gave their attention to getting out the 125 paupers and insane, and let the building burn. All but eleven of the inmates were saved.

The names of the dead discovered are Sarah Mills, Sarah Gallagher, Sarrh Bailey, Laura Gray, Delia Benedict, Deborah Dibble, Mary Ann Dibble, Lucy Warren and Amelia Atwood.

All the departments of the institution were crowded. The rescue of the poor creatures, many of them old and feeble, and others wild with terror, was no easy task, and the great wonder is that so many were rescued. The people went at it hap-hazad, appalled by the awfulness of the cries and moans of the inmates and the magnitude of the catastrophe. Two women (idiots) were burned, but their names cannot yet be given. A session of the Supervisors will be held to-night in order that immediate provisions may be made for the inmates. The Sheriff has sworn in a large number of deputies and is searching for the missing. The number of the dead may possibly reach 13.

Aunty Curtis Talks.

By Associated Press.]

NEW YORK, May 8.—The State Civil Service Reform Association held its annual meeting last night. President George Wm. Curtis said: Late revelations regarding the misgovernment of this city have furnished a new demonstration of the necessity of civil service reform. He credited President Harrison with good intentions, while condemning First Assistant Postmaster-General Clarkson for having made thirty thousand removals for political reasons; more than in any Administration before ever made in the same length of time. The speaker made one or two condemning references to Senator Quay. He congratulated his hearers on the fact that the man whom one of the great parties will soon be obliged to make its candidate is so favorably disposed towards civil service reform. Curtis was re-elected President.

The Ball Season a Failure.

By Associated Press.]

NEW YORK, May 8.—Spalding of Chicago, Hawley of Cleveland and O'Neill of Pittsburg held a long secret conference here yesterday. They declined to state the result, but it is known the ball season, both of the League and Brotherhood, has not been successful financially so far. It is believed that a number of clubs in both Associations will have to go to the wall unless something can be done to improve the situation.

PITTSBURG, May 8.—The League club has suffered most, losing heavily from the start, and it is said it cannot stand the drain much longer. There is talk of its removal to Indianapolis. It is understood that yesterday's conference was with a view of changing dates to avoid a conflict with players in the schedule.

A Coast Line Road.

By Associated Press.]

PITTSBURG, May 8.—The proposition to build a coast line railroad from Portland, Or., to Lower California is at present occupying the attention of a syndicate of capitalists on the Pacific Coast.

Albert Houghton of San Francisco, a member of the syndicate, was a passenger on the limited express this morning. "I am going to New York," he said, "to endeavor to interest Eastern capitalists in the project. It will probably be called the California Coast Line Railroad."

Heavy Damage Suit.

By Associated Press.]

NEW YORK, May 8.—The papers are served upon ex-Judge Henry Hilton in an action by James F. Graham, city editor of the *World*, for $50,000 damages for libel. The complaint is based on a letter written by Hilton to District Attorney Fellows, on which the Grand Jury found indictments against four members of the *World's* staff for criminal libel.

The Best Thing He Could Do.

By Associated Press.]

NEW YORK, May 8.—Edward Buchanan died in a cell to-day from alcoholism. He was a prominent merchant of San Francisco and arrived here a few days ago from Liverpool.

Refused a New Trial.

By Cable and Associated Press.]

LONDON, May 8.—O'Brien has been refused a new trial in his libel suit against Salisbury. On the first trial the verdict was returned in favor of Salisbury.

Returning to Work.

By Cable and Associated Press.]

PARIS, May 8.—Twenty thousand strikers at Roubaix have resumed work, and the strike is practically ended.

Convicted of Libel.

By Associated Press.]

NEW YORK, May 8.—O'Donovan Rossa, recently convicted of a criminal libel, was to day fined $100.

Cobden Club Cheek.

The activity of the Cobden Club is shown in the address it has forwarded to the delegates of the International Labor Conference that the German Emperor has convened at Berlin. The address sounds very much like the speeches our free-traders are in the habit of indulging in. According to the Cobdenites there is no possible chance of labor improving its condition until the principles of free-trade are accepted and put in force by the nations of the world. This is another way of saying that the welfare of workingmen in all countries demands that the whole civilized world shall practically become England's customers. Here is the way in which the Cobden Club makes this modest proposition:

"The Committee of the Cobden Club believe that the most effectual steps which can be adopted for the improvement of the working population in other countries are the removal of restrictions upon foreign imports—upon imports of food, of raw materials, of manufactures; of all things, in short, the consumption of which administers directly to the comfort or occupation of the working classes, and the purchase of which promotes industry by turning it into the most profitable channels. It is not by the imposition of restrictions that the greatest good can be done to the poor, but by the abolition of the sustems of protection."

Taking into consideration the fact that the principal countries represented in the Conference believe in the policy of protection, the Irish World says this address of the Cobden Club is a good specimen of cheek.

It is not, however, the first time that this organization of English free traders has made a display of cheek. For many years it has had its finger in the affairs of this country. All along it has been at the back of the free trade movement, which it has supplied with the sinews of war on more than one occasion. The suggestion it has made to the International Labor Conference it has frequently offered to this country through the mouths of our free traders, who are doing its work in the United States. It would be a sorry day for us if we should ever carry out the advice of the Cobden Club.

"TAXPAYER" has a communication on the local page of to-day's GAZETTE on the condition of Nevada, and advocates the consolidation of the counties and the cutting down of State expenses. While he takes rather a gloomy view of the situation there is much truth in what he says. The GAZETTE believes, however, that Nevada has passed through her business depression already, and that better times are coming to us notwithstanding the heavy loss in stock the past winter. If Congress passes a silver bill that will bring that article on a parity with gold, or even keep it where it is now, there are hundreds of mines within our borders that can be profitably worked, and many of the camps that are now dead will be resurrected and give employment to hundreds of men. Our agricultural population will be greatly augmented within the next two years, and thousands of happy homes will be made where the desert greets the eye to-day. Still, that is no reason why the people should be taxed to death to keep a lot of office-seekers and politicians in idleness. It is no reason why sixty men should be called together every two years to idle their time away legislating on wild cats and lottery schemes at the State's expense, when once in four years is often enough for us to change or pass new laws if they legislate wisely when in session. We can have just as an efficient government and be accorded the same protection that is vouchsafed to us to-day for $50,000 per annum less than the present cost, and not hurt our pride or detract one iota from our dignity as a State.

Colonel C. J. Murphy, an American, proposes to build a corn palace at the Edenburgh International Exposition which will be held this Summer.

Steady Progress

Has characterized Hood's Sarsaparilla ever since it was placed before the public. Wherever introduced, its sales have grown from year to year, until now it is the most popular and most successful medicine offered. Any druggist will confirm this statement. The secret of this success lies in the fact that Hood's Sarsaparilla is a medicine of merit. It does actually accomplish all that is claimed for it, and when given a fair trial, is reasonably certain to be of benefit.

Positive Statements.

"Since Hood's Sarsaparilla has been in my hands for sale I have had frequent and unreserved testimonials in its favor. Although carrying this preparation for less than one year, my sales have been greater than of any similar preparation, and the testimonials in its favor are at once positive and personally noticeable." A. WRIGHT, Healdsburg, Cal.

Sells On Its Merits.

"My boys say, 'Papa, why don't you buy more of Hood's Sarsaparilla at a time; we are always short.' It sells on its own merits." F. BEAL, Portland, Oregon; the oldest druggist in Oregon.

CATARRH,

Catarrhal Deafness—Hay Fever A New Home Treatment.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent on receipt of three cents in stamps to pay postage. A. H. Dixon & Son, 337 and 339 West King Street, Toronto, Canada.—*Christian Advocate.*

Sufferers from Catarrhal troubles should carefully read the above.

The Clanger of an Alarm Bell

Close by, in the stillness of the night, could scarcely startle the ordinary individual more than trifling noises the nervous invalid. But once the nerves are braced and the system invigorated with Hostetter's Stomach Bitters, this abnormal sensitiveness is succeeded by a tranquility not to be disturbed by trival causes. Impaired digestion is a fertile cause of nerve weakness and unnatural mental gloom, and a vigorous renewal of the action of the stomach is one of the surest means of invigorating and quieting the nerves. Insomnia, or sleeplessness, a form of nervous disease, is unquestionably benefited by sedatives, when it is prolonged, or of frequent occurrance, but its premanent removal is more effectually achieved by the Bitters. This medicine is also signally efficacious for malaria, rheumatism, constipation, liver complaint and torpidity of the kidneys and bladder.

The First Step.

Perhaps you are run down, can't eat, can't sleep, can't think, can't do anything to your satisfaction, and you wonder what ails you. You should heed the warning, you are taking the first step into Nervous Prostration. You need a nerve tonic, and in Electric Bitters you will find the exact remedy for restoring your nervous system to its normal, healthy condition. Surprising results follow the use of this great nerve tonic and alterative. Your appetite returns, good digestion is restored and the Liver and Kidneys resume healthy action. Try a bottle. Price 50c, at Wm. Finniger's Drug Store.

Liver Complaint—Biliousness.

The chief symptoms of this disease are depression of spirits, foul coated tongue, bad tasting mouth, disagreeable breath, dry skin, with blotches and eruptions, sallow complexion and yellow eyes, tired, aching shoulders, dull pain in right side, faintness, dizziness and irregular bowels. This complaint in all of its forms can be readily cured by taking Dr. Gunn's Improved Liver Pills as directed, and a lingering spell of sickness will often be warded off by their use. On a recent visit to Iowa, Mr. K Dalton of Luray, Russell Co., Kansas, called at the labroratory of Chamberlain & Co., Des Moins, to show them his six year old boy, whose life has been saved by Chamberlain's Cough Remedy; it having cured him of a very severe attack of croup. Mr. Dalton is certain that it saved his boy's life and is enthusiatsic in his praise of the Remedy. He says it has an excellent reputation in his vicinity; that farmers come fifteen miles to his store for it and that many of them, like hinself, are never without it in their homes. A CONSTITUTIONAL CONVENTION

"Taxpayer" Gives His Views of the Situation—An Interesting Communication.

EDITOR GAZETTE: I read your editorial yesterday referring to a Constitutional Convention with much interest, and believe its consideration to be the most important subject that can attract the attention of the people of this State, barring always the silver question, which is rather more national than local. But there is no disguising the fact that Nevada is at present undergoing a severe ordeal, in a business point of view, and the resources of her inhabitants are severely strained to meet the demands upon them, which must be provided for; and in this condition of affairs it calls for the most rigid economy, both in public and private expenditures, to tide over our present unfortunate situation, or bankruptcy must certainly follow. It is useless for the people of a commonwealth to disguise their real condition out of consideration of natural State pride, or to pretend that the situation is less alarming than it really is, because such a course is open to the objection of sailing under false colors, in the first place; and in the second, the deception redounds to the disadvantage of our own citizens. The real sensible thing to do is to reconnoitre the situation, and then undertake the adoption of measures which will materially lessen the burdens of the taxpayers of the State. But how this can be accomplished is a very pertinent inquiry. Let us look over the field and see. At the last session of the Legislature a concurrent resolution was passed submitting to the people the question of calling a Constitutional Convention, which must be voted upon at the coming election. It is high time that this instrument should be remodeled, and many luxuries, rendered mandatory by its provisions, and for which we have been paying for a quarter of a century, could be dispensed with without serious detriment to the public service.

For the year 1889 we paid a Secretary of State and deputy $5,000, and a Clerk of the Supreme Court $3,000, making $8,000 paid to three men for doing less work than any bookkeeper in Nevada at a salary of $150 per month had to do in the same time. We have an Attorney-General at a salary of $3,000 per year, where the office is only traditional, without the least excuse for its preservation. There is no reason on earth why the District Attorneys of the various counties should not follow and try the few criminal cases which are appealed to the Supreme Court, as lawyers have to do in civil cases, and if this additional labor is required of District Attorneys, there will be no dearth of candidates for the position.

A Lieutenant-Governor with several ex-officios to his title last year secured $2,572 for the purpose, no doubt, of looking after the Governor's private secretary, who also draws $2,000, and both of them together, with the Governor thrown in, who receives from the State $5,000 per year, have less to do than an ordinary deacon in any well-regulated congregation.

Again, we have seven Supreme and District Judges in the State, which cost the taxpayers last year for salaries about $43,600. The District Judges a portion of the time have had a little work to do, although it is safe to say that all the judicial business transacted last year in the District Court was not sufficient to keep two men busy for six months, and up to this writing, in the year of our Lord 1890, it is believed that no contested case has occupied the attention of the Court in any county in the State. But the Supreme Court has outlived its usefulness and in its present form, ought to be abolished. There is no reason why the members of the Supreme Court ought not to hold the District Courts, and once or twice year meet and hold a term of the Supreme Court, and thus save to the taxpayers $20,000 per year.

Then we have biennial sessions of the Legislature, which cost the people every time they meet, in mileage and salaries, about $50,000, to say nothing of the other mischief they perpetrate upon the body politic in the shape of water laws and other useless enactments. Every four years is quite often enough to be inflicted with a Nevada Legislature, and were it not that we have to elect a United States Senator once in four years, it is believed that once in ten years would be quite satisfactory to the taxpayers. All of these subjects could be met and provided for by a Constitutional Convention, which are impossible to be remedied by the process of amendment, and until such a convention is held the old system of drainage from the pockets of the people must continue to flow on, although there has been a shrinkage of the taxable property in the State in ten years of more than $15,000,000, as shown by the Controller's report for the year ending December 31, 1889. The truth, however, is that there has been an actual shrinkage of more than $20,000,000, but in order to keep the State and counties upon any kind of a financial footing, property is assessed in most of the counties beyond its actual cash value, and the writer is satisfied that the property of any Eastern county would not sell to-day for the assessment roll.

If this state of affairs continues it will not only prevent capital from coming into Nevada, but will make this State one of the very best in the Union to emigrate from.

One other proposition and I will leave the subject for the dissection of your readers: There are fourteen counties in the State, whose county governments cost the taxpayers last year in cash, $435,939, or nearly a half a million dollars, which in most of the counties was paid for the distinguished privilege of once or twice during the year seeing a District Judge arrive and a jury assembled, when it would be generally ascertained that there was nothing to do for either judge or jury. Now the truth is that we have about twice as many counties as we need, and instead of fourteen they should certainly be reduced to eight, which would relieve the people of the State of at least seventy-five officers, at an annual cost of $100,000. The map of the State, which I have before me, can be covered by eight counties and be just as convenient for its inhabitants as it is now, and I venture the prediction that no objections will be made by any class of citizens, except the crop of professional candidates, and this class has always considered that the government is organized for their special benefit. Very respectfully, yours, TAXPAYER.

WHY DOUBLE TURRETS

Are far Less Effective Than Single Ones.

Ericsson declared most unmistakably that two turrets on a vessel had "the same advantages as two heads on the human body or two suns in the heavens. There are advantages in either case, but the disadvantages are innumerable. "The proposition is incontrovertible," he further said, "that when all the resources of mechanic art have been employed on either side the nation that puts a fleet of double turret ships to sea will be utterly annihilated by the nation that employs the single turret ship, with its greater speed, greater impregnability and heavier ordinance. This concentration gives a thickness to the turret, insuring absolute impregnability, with guns of such caliber as to crush an adversary at a single blow." At the same time Ericsson believed that the day for heavy ironclads of all sorts had passed. The type of naval structure he advocated was a light vessel of high speed, carrying a single gun, planting its shots under water and below the cuirass of armored vessels, and he believed in a contact so close that no shot could be misdirected.

PERSONAL.

D. L. Bliss of Carson arrived here last evening.

Thomas Beer of Virginia was in town this morning.

M. D. Foley came up from below this morning.

Hank Smith, formerly of Virginia, was a passenger west on last night's train.

E. Gest, General Manager of the N.-C.-O. railroad, left yesterday for a trip to New York.

John McGrath of the Susanville *Advocate* made the GAZETTE a friendly visit this afternoon.

Miss Emiah Bowen, of Tuscarora, formerly of Reno, has been engaged as the teacher of the public school in Huntington Valley, Elko county.

Mrs. J. F. Alexander came up from the Bay yesterday morning and will return to-morrow night and sail for Spokane Falls, via Portland, on Sunday.

The "Gazette" Weather Service.

The storm now ended, and which began on the eve of the 6th inst., was much prolonged, and was accompanied by a very low barometer. The rainfall measured .81 of an inch—quite a rain for a dry country. At first it hailed and rained in the high mountain regions, and ended with snow and hard freezing in those elevated places, thus greatly checking the flow of water therefrom. The barometer is now slowly rising, and the storm is at an end.

The dams are reported as breaking up and going out on the Truckee river above us, and it is to be hoped that the debris will not gorge near here, which, if it does, will greatly increase the danger from overflow.

C. W. IRISH.

A Monotonous Life.

The Queen Regent of Spain appears to lead as monotonous a life as any other domestic and painstaking head of a household in easy circumstances. She rises early, takes a daily cold bath, winter or summer, and wears very simple clothes, with no jewelry, except on state occasions. She breakfasts frugally with her children, spends the morning on public business, takes a little drive, has luncheon, gives audience, and then romps with the children till their bed-time, after which she reads, works and plays dominoes till her own bed-time, dinner making a solemn interruption.

Lee's Last Order.

There has been found at Wheeling the original copy of General Order No. 9, issued by General R. E. Lee. It bears the date of April 10, 1865, and is in the nature of a farewell to the Army of Northern Virginia, in which General Lee compliments his soldiers for their bravery, and wishes them God's blessings. The paper fell into the hands of a Confederate officer and was afterwards lost. John Riel, a Wheeling gentleman, found it among a lot of old papers while visiting a friend near that city. The signature has been attested as genuine.

A Lady Sharpshooter.

The historical house built by the Marquis de Talleyrand on the St. John's river, near Jacksonville, Fla., when, in 1793, France and England, both having denied him a home, he found a refuge in the United States, is now the winter home of Mr. and Mrs. Richard R. Paulison. The latter, an accomplished and beautiful woman, is known as the best lady shot in the South. She can cut off a coot's head with a rifle at 200 yards, or can shoot an eagle on the wing, and has performed many other difficult feats of markmanship.

Oregon Strikes.

The carpenters strike at Portland is still on. The Builders' Exchange will make no concessions and every day sees the carpenters' chances of winning grow smaller. An effort to arbitrate the fishermen's strike was made at Astoria, but was unsuccessful, the men conceding $1 a fish, instead of $1 25, which had been asked, and the canners declining to offer more than 75 cents.

A Church Quarrel.

At the Bishop Bowman faction of the Evangelical Conference at Albany, Or., yesterday resolutions were adopted expelling from the church C. A. Polling, F. C. Locke, E. S. Bolling and J. H. Herschner, four of the most offensive participants, and eight others were suspended from ministerial functions for one year. This will be contested before the courts.

Exposure to rough weather, getting wet living in damp localities are favorable to the contraction of diseases of the kidneys and bladder As a preventive, and for the cure of all kidney and liver trouble, use that valuable remedy Dr. J. H. McLean's Liver and Kidney Balm. $1 00 per bottle.

WADSWORTH.

Scraps From a "Gazette" Reporter's Note Book.

A GAZETTE reporter visited the busy little town of Wadsworth yesterday, and found that the business men generally were happy and contented with their lot in life, and not given to faultfinding as much as they are in some portions of the State.

The railroad shops are a busy place, and about fifty mechanics are earning good wages in repairing the disabled rolling stock belonging to the Southern Pacific Company.

The Engineers' and Mechanics' Library has been closed for a number of months, owing to a lack of funds to keep up running expenses, but an effort is being made now to reopen it. The society has elected N. A. Hummel as librarian.

Nichols & George of the Wadsworth Hotel are doing a nice business, and keep a fine house. They have well earned the patronage that is bestowed on them.

John ("Scotty") Lee carries a large and well assorted stock of goods, and, as the honest old Scotchman is one of the landmarks of the town, he enjoys a liberal patronage.

Ed. Fowler, Wells-Fargo's agent, keeps a variety store, and, with the assistance of Mrs. Fowler, makes the weary traveler happy by serving a nice hot lunch. Mr. Fowler is thinking of taking a trip East in the near future.

Charley Lewis contemplates refitting his cosy little saloon and making it more attractive than ever before.

Wm. Donaldson, the genial landlord of the Nevada House, enjoys a liberal patronage, and now that he feeds the westward bound passengers, is quite popular with the traveling public.

N. A. Hummel is employed in Superintendent Whited's office, and as he has some spare time, has promised to keep the GAZETTE's readers posted on Wadsworth news.

The town enjoys a nightly visit from the festive tramp, and like Reno, is overrun with that undesirable element of society.

The people will ask for a County Commissioner and a member of the Assembly from that place at the coming election. They say that a commissioner is indispensible.

Pike and Whitman are doing a nice butcher business and are deservedly popular.

The shipment of fish, which, by the way, is a great industry and gives employment to a large number of men, will fall short of former years, owing to so much stormy weather the past winter.

A TARDY RECOGNITION.

The United States Follows all the Leading Nations of the Earth.

Joseph Francis has just received from the Government of the United States a gold medal, valued at over $6,000, in recognition of his services to mankind in the invention of the lifeboat, the life-car and other life-saving appliances. In 1851 the Emperor Napoleon Knighted him and presented to him a gold snuff-box, with the imperial initials and a crown in blue enamel set with eighty-six diamonds. The Emperor of Austria gave him compliments and presents, the Czar of Russia rewarded him with the coveted ribbon of the Knights of St. Stanislaus, the sovereigns of Prussia, Holland and England bestowed honors and profits, but the United States has strangely delayed her official approbation until the inventor is ninety years of age.

Could Not Recover.

The ship Largo Law entered the port of San Diego and paid duty on a cargo of cement. She discharged only part of it there and went to Portland, Or., to discharge the remainder. Collector Abraham, at the latter port, collected about $700 tonnage tax when the cargo was discharged. Judge Hanford of the United States Circuit Court, in a suit to recover the tonnage collections, says the ship should pay duty on that portion of her cargo discharged within any district; therefore, the ship was rightly held to pay the tax at Portland, and it was her own mistake if she paid it in San Diego.

Large Land Sales.

A Parkersburg, W. Va., dispatch says: Ex-Senator Camden, ex-Senator Davis and Stephen B. Elkins have conveyed to the West Virginia & Pittsburg Railroad 86,500 acres in Webster county, rich in timber and coal for $246,125, which were purchased a short time ago for $71,400. An iron mining company, with a capital of $400,000, has just purchased 9,300 acres for $150,000 in Greenbrier county, which is richly underlaid with minerals. Two thousand acres near this city, rich in timber, were sold for $50,000.

Free Coinage Resolution.

The citizens of Salt Lake on Tuesday held a meeting in favor of free coinage of silver. One of the resolutions adopted says: "As silver was beaten down, not by the law of supply and demand, but by cruel legislation, we demand that the fetters placed upon it by that legislation shall be broken."

Elder B. F. Kittenger of Gettysburg Pennsylvania, says he has been suffering with a cold and cough, also his wife, that they took to using Chamberlain's Cough Remedy and received great benefit from it. Yet he says, "It was so pleasant to take." For sale by Shoemaker & Co.

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle. iy

NERVOUS HEADACHES.

Immediate Rest Needed on the First Symptom.

According to the *American Analyst* a nervous headache is a dangerous signal. If it be frequent the danger is increased; if it be continuous a catastrophe is imminent. The driver must put on his brake at all hazards, or he will probably soon have a leap for his life. There are very few sets of circumstances in which it is a man's duty to go on with his work when he is in this condition, at all risks. Even a threatened bankruptcy had better be risked than a threatened life. Besides, a man who is in the unyielding grip of a permanent nervous headache is not really the best judge of his own circumstances. He magnifies and distorts things amazingly. He takes counsel of his fears and abandons his hope and courage altogether. Rest, immediate and sufficient rest, is the sovereign remedy. A fortnight at once may be better than a year six weeks hence.

NO LONGER A TERROR.

Modern Treatment that Cures Constipation.

According to the San Francisco dailies a remedy has been discovered that with almost unerring certainty overcomes constipation. It is the new laxative principle in Joy's Vegetable Sarsaparilla. The papers are full of recent occurrences confirming its efficacy, and we give place to their last sensation, a card from San Francisco's well known lady manicure. She says: "I am willing to relate the following experience. I have for years had a weak stomach attended with constipation, and never found but one preparation that helped me and that soon wore out and lost its effect, and I was again a sufferer till I tried Joy's Vegetable Sarsaparilla. It has thoroughly reorganized me. I had one of the most sensitive of stomachs and was in continual distress, but can with the aid of Joy's Vegetable Sarsaparilla now eat any and everything with my old accustomed freedom. I am both surprised and delighted, and gladly recommend it."

Publication of Summons.

IN THE DISTRICT COURT OF THE State of Nevada, in and for the county of Washoe. The State of Nevada sends to G. R. Stockwell Mary Stockwell, T. A. Lander, and Bull and Grant Farm Implement Company, a corporation, greeting: You are hereby required to appear in an action commenced against you as defendant by Mary E. Grippen as plaintiff, in the District Court of the State of Nevada, in and for the county of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover a decree against you and each of you foreclosing a mortgage made by defendants, G. R. Stockwell and Mary Stockwell, and to foreclose and bar your equity of redemption to and in the following described real property, to wit: Lots four and five (4 and 5) in block "I" in Hayden & Shoemaker's southeast addition to the town of Reno, as known and described on the "offi ial map" of said addition to said town, together fronting one hundred feet on the north line of Mill street, and having a depth of one hundred and forty feet northerly to an alley; situated and being in the County of Washoe and State of Nevada; and for an order and decree directing a sale of said property for the purpose of paying the interest due and unpaid on a certain promissory note in the sum of $62 70-100, made by G. R. Stockwell and his wife, Mary Stockwell, and that she be authorized to retain from the proceeds arising from a sale of said property, the principal sum of said note amounting to $612 50-100; and that she also retain moneys advanced in the payment of taxes, and in the payment of costs and charges because of delinquency in the payment of taxes for the year 1889, in the sum of $30 42-100, and money advanced for the payment of an insurance premium in the sum of $12 60-100; and that said payments and advances be declared liens on said premises. That she be authorized to retain from said money attorney's fees in the matter of foreclosure, and such other costs and charges as may accrue in said foreclosure proceeding and sale, also for a writ of assistance for the possession of said premises by whomsoever may be thereto entitled; and for such other and further relief as the complaint will permit, and for a judgment for any remainder, should there be such, against G. R. Stockwell, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred.

And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded and for costs of suit.

In testimony whereof, I, William Webster, have hereunto set my hand this 23d day of April, A. D. 1890.

WILLIAM WEBSTER,
Attorney for Plaintiff.

BEBE, COURT DWARF.

Queer Career of the Tom Thumb of the Last Century.

The Diminutive Creature Owned by King Stanislaus of Poland—Numerous Perils to Which the Little Fellow Was Exposed—His Last Days.

The story of Bebe is a quaint bit of last century's history, which has just been rescued from oblivion by a Continental Dryasdust. Bebe is supposed to have been the littlest man who ever lived, says the New York Sun. He was borne by a peasant woman in Lorraine just 150 years ago, and was called Bebe because the first few years of his life he could articulate only "b-b." The day of his birth Bebe was smaller than his mother's hand. Ten days afterward he was taken to the village church to be baptized in his mother's wooden shoe, because he was too tiny to be carried safely in her arms. During the next six months the same wooden shoe served as Bebe's crib.

Bebe's early childhood was uneventful. He did not grow and he did not talk. He was famous throughout Lorraine, however, as the cunningest and tiniest bit of numanity ever seen. He was perfectly proportioned, had wonderfully large and beautiful brown eyes, and was remarkably active upon his diminutive legs. When Bebe was about seven years old King Stanislaus Leszynski of Poland, who was then living in Lorraine, heard what a wonderful little fellow he was, and ordered the child's father to bring him to court. Bebe, Sr., carried his son to the royal palace in a small basket.

At time of his introduction to court life Bebe was just twenty inches tall and weighed eight pounds. He never grew larger. At first the King tried to teach him jokes and fairy stories and bits of questionable poetry. Bebe's intelligence, however, was not equal to the demands thus made upon it. His memory was so weak that he forgot one hour what he had learned the hour before. Reading and writing were for him quite impossible. With all these failings, however, he was by no means a failure as a court dwarf. He had a sweet little voice, a good ear for music, and nimble legs. He could dance and and kick and sing with the best of the King's courtiers. He was very useful as a table ornament at all the King's great banquets. His most famous appearance in this rather curious role took place at a dinner which Stanislaus gave to the ambassador of a great power in 1755. In the middle of the table was an immense sugar castle. Shortly before the guests rose to leave, the door of the castle opened, and a knight in full armor stepped out with a drawn sword in his right hand. All the guests thought the knight must be some wonderful automaton which the King had obtained from the skilled mechanics across the Rhine. He wasn't, however. He was none other than little Bebe. He walked around the table, shook his sword in the face of every guest, saluted the King, and then turned back to the castle entrance, where he assumed the position of sentry. At a signal from the King every one at the table began to bombard him with small sugar balls. Bebe hurried at once into the castle, locked the door, mounted the tower, and pretended to return the fire by setting off a lot of perfumed explosives.

Within ten or twelve years after Bebe's appearance at court he was one of the most celebrated persons in royal society on the continent. With fame, however, came to him numerous perils. All the sovereigns of Europe were coveting him, and many of them tried hard to steal him. In 1758 the Empress Catherine, of Russia, sent an emissary after him to the court of the Polish King. Late one evening, when the royal palace was almost deserted, Catherine's emissary snapped Bebe up and stuffed him into the pocket of his great coat. Bebe screamed so lustily that he revealed the plot to the guard at the door. The emissary was arrested and Bebe was rescued. Not long afterward Bebe accompanied Stanislaus to the court of Louis XV. in Versailles, where he again narrowly escaped abduction. A lady of the French court had been holding him in her lap between the courses of a court dinner. Suddenly she rose to leave the room. Her first step was accompanied by a shrill cry from the folds of her gown: "Your Majesty, your Majesty, this lady has stuck me in her pocket, and is running away with me." The voice was Bebe's. He was immediately dragged from the court lady's pocket and placed under the guard of two pages, who were instructed by King Stanislaus to watch him day and night.

The perils through which he had passed, and the strict surveillance to which he was now subjected, depressed Bebe's spirits and demoralized his nervous system. He became melancholy, morose, round-shouldered and haggard. The King thought he needed a companion to cheer him up, and therefore married him with great pomp and ceremony to Therese Souvray, a dwarf of about his age and slightly greater stature. That was the last drop in Bebe's cup. Two weeks after his marriage he lost his mind. He ceased to talk entirely, ate little, and passed most of his time in his crib.

His honeymoon was hardly up when he died. Shortly before his death his clouded mind was cleared in a most remarkable manner. His memory, which had always been weak and after his marriage had vanished, sudddenly returned. He recollected all the incidents of his early childhood, his mother's face, which he had not seen for fifteen years, and all the songs which had been taught him since his advent to court. Bebe was just twenty-one years old when he died. His wife Therese survived him forty-two years.

The Worship of Success.

There is nothing so abject as the worship of mere success, unless, indeed, it be the worship of mere wealth. There is nothing lower than to admire and flatter a man simply because he has got on, because he has carried his point, because he has come to be talked about in the way in which he wished to be talked about, and to think scorn of others whose merits and efforts may have been equal to his, or very likely much greater, but whose merits and efforts have, from some cause or other, not been so lucky as his in gaining the objects at which they aimed.

FUN FOR EVERYBODY.

REGISTRAR OF VOTERS—"How old are you, madame?" Female—"I have seen nineteen summers, sir." Registrar—"Er, how long have you been blind?"

"THOMAS, spell 'weather,'" said the master. "W-i-a-e-t-h-i-a-e-r, weather." "You may sit down, Thomas; you've given us the worst spell of weather we've had this year."

STOUT MAN (in something of a hurry)—"I'll give you five dollars to get me to the station in three minutes." Cabman (with provoking slowness)—"Well, sor, you might corrupt me, but you can't bribe that horse."

A MAINE man told his wife he was going to Asusangwatousogamagogwongtongowa fishing, and got all his friends to go to his house and ask where he was. When he returned the poor woman was so exhausted she couldn't speak for a week.

A POST-MORTEM examination revealed in the stomach of a bull terrier that died suddenly several yards of string, burned matches and a cigarette-holder. The cigarette-smoking youth appears to have been thoroughly digested, but it is rather strange that a few buttons were not also found.

A CLERGYMAN preached several sermons from the text: "Peter's wife's mother lay sick of a fever." One morning the church bell tolled, and the minister asked the servant who was dead. The man replied that he believed it was Peter's wife's mother, as she had been sick for a long time.

"PERHAPS," said a fresh young man, as he plumped himself down on the sofa between the two giddy girls, "perhaps you were discussing some choice secret?" "Oh, no," said one of them, "I was just saying to Minnie that 'nothing should separate us,' but really I didn't expect it to happen so soon." And the beating of his own heart was all the sound he heard.

MR. DE DREAMER—"I couldn't help running in to see what all this scandalous talk about you means. It was reported at the Faith Cure Society last evening that a doctor, a regular doctor, was seen leaving your house yesterday afternoon." Mr. de Faith—"It is true." Mr. de Dreamer—"True? You, who were cured only last month of rheumatism, dropsy, pneumonia, consumption and paralysis, sending out for a doctor." Mr. de Faith—"I had to do it. It's a boil this time."

A POET asks—"What are the dreams of the days gone by?" The poet has no business to ask such foolish questions. They are gone, irrevocably gone. You can't put up dreams like you can bottle ketchup or can preserves. You have to get all the good you can out of a dream while it is on tap. That's the time to enjoy dreams. Then when the dreams are gone by, if the poet hankers after more, let him eat a mince pie or some pickled tripe before going to bed, and he can secure a new, fresh batch of dreams with no trouble at all.

QUEER CRIMINALS.

IN 1266 a pig was burned at Fontenay aux Roses, near Paris, for having eaten a child.

IN 1386 a judge at Falaise condemned a sow to be mutilated and hanged for eating a child.

IN 1389 a horse was solemnly tried before the magistrate and condemned to death for having killed a man.

IN 1694, during the witch persecutions in New England, a dog exhibited such strange symptoms of affliction that he was believed to have been ridden by a warlock, and he was accordingly hanged.

"CRIMINAL" animals frequently expiated their offenses, like other malefactors, on the gallows, but subsequently they were summarily killed without trial and their owners mulcted in heavy damages.

DURING the fourteenth century oxen and cows might be legally killed whenever taken in the act of marauding, and asses for a first offense had one ear cropped, for a second offense the other ear, and if after this they were asses enough to commit a third offense their lives became forfeit to the Crown.

IN the fifteenth century cocks were somewhat credited with the power of laying accursed eggs, from which sprang winged serpents. In 1474, at Bale, a cock was publicly accused of having laid one of those dreadful eggs. He was tried, sentenced to death, and together with his egg was burned by the executioner in the market-place, amid a great concourse of people.

EDUCATIONAL DEVELOPMENT.

THE order and method of presentation determine the order and method of representation.

MOTIVES are high in proportion to the absence of selfishness and the presence of benevolence.

THE best physical development results in health, strength, skill and graceful action.

THE knowledge of general relations must be preceded by the knowledge of special relations.

PHYSICAL skill requires repeated voluntary action of those muscles which are to act skillfully.

THE conditions under which presentation takes place determine the probability of representation.

THE power of demonstrative reasoning is developed later than the power of moral or probable reasoning.

THE development of the moral character depends upon the nature of the motives which influence the will.

THE purpose of education is determined by the civil institutions of the country in which the child lives.

THE highest type of moral character is found in the man who performs right actions from the highest motives.

THE action of the representative faculties is conditioned by the previous action of the presentative faculties.

THAT man is best educated who best knows his duty, is best able to do his duty, and is always influenced in his actions by the highest motives.

THAT mind is best developed whose capacity for happiness and useful action is greatest and whose intellectual faculties are controlled by a firm will, which is always influenced by right motives.

—The Journal of Education says that Little Lord Fauntleroy has made more little boys graceful than all the schools combined. He "has done away with a deal of boisterousness and a deal more awkwardness."

AN AWFUL BLUNDER.

A Counter-Jumper Mistakes a Young Lady for a Wire Dummy.

A friend told me the following story, says the Brooklyn Citizen, which demonstrates the fact that it always pays to keep your eyes wide open, no matter how prompt you are compelled to be in attending to your business.

It was a rainy morning about two weeks ago. One of our large dry-goods establishments had placed on one side of its entrance a wire dummy with a rubber cloak thrown over it for the purpose of catching the eye of some of the female passers-by who did not possess a "McIntosh." The young man who had received orders to place the figure outside the door was a foreigner but a short time in the country. Pretty soon it cleared up and one of the cash-boys was told to bring it inside, which he did. In just about half an hour it dawned upon the young foreigner that he had forgotten something, and, making straight for the door, he proceeded to carry back the figure whence it came. It happened that a young lady of medium build stood upon the spot the dummy had occupied but a short time before. She had her back toward the window and was apparently waiting for a car. The young man rushed up to her, and throwing his arms about her waist, lifted her off her feet, and was about to hustle her into the store when a shrill shriek rent the air. The clerk was dumfounded. He blushed, turned pale, and goodness knows how many other colors, but was, nevertheless, conscious of the awful mistake he had made. The young lady was about to thrash him with an umbrella which she carried when one of the floor-walkers appeared upon the scene. In the meantime the young man kept begging the young lady's pardon. But she would not have it, and instead of accepting his apologies she sought a member of the firm, who, however, was able to settle the matter amicably. The young man was not discharged either, for his mistake was unintentional and perhaps natural in his hurry.

Steam Navigation on the Nile.

A new Egyptian association has been formed, styled the "Thewfikieh" Company, who are the owners of a number of steamers which have been specially fitted for a regular service of passengers desiring to ascend the river from Cairo to the first cataract, visiting the antiquities on the banks. The formation of this company has been sanctioned by a decree of the Khedive, who has just inaugurated the operations by a personal visit on board the steamer El Khedevie. The saloon, ladies' boudoir, smoking room and all parts of the steamer are illuminated by 80 electric lights of a total power of 2,500 candles, and the decorations of the apartments are of the most elegant and luxurious character.—Scientific American.

I oft have heard my married sisters say [tion
That good old Dr. Pierce's Favorite Prescrip-
Would bring back color to a faded cheek—
Restore the health of one who fain would die
To rid herself of all the pain she feels."

The aforesaid spinster took the remedy—and forthwith took a husband also, having regained her health and blooming beauty.

Thousands of women owe their fresh, blooming countenances to the restorative effects of Dr. Pierce's Favorite Prescription. It is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb.

Given Away!

The article the GAZETTE is giving away is no cheap or common-place affair, it is something every family ought to have. It is a

Medical book for home use.

A book that is valuable, and choice in its language.

A book of 480 pages.

A book which you do not have to keep under lock and key.

A well printed book.

A well bound book.

50,000 copies have sold in the last six months.

It is a $3 book which is given away.

OUR PURPOSE—We are making this *new departure* for two reasons:

First. We wish in this way to express to our Old Subscribers our appreciation of their patronage.

Second. We hope to induce a large number of New Subscribers to take our paper.

OUR PLAN—We shall give a copy of this three dollar book to each one of our subscribers this year, old as well as new, as follows:

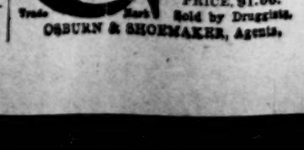

A new subscriber who sends for the WEEKLY GAZETTE and STOCKMAN for one year at $2 00 in advance, we will give a copy of this $3 00 book.

To any old subscriber who will renew his or her subscription for one year, at $2 00 in advance, and get us one new subscriber at $2 00, we will give a copy of the book.

In this case, the new subscriber will also get a copy of the book with his year's subscription.

To all delinquent subscribers who will pay arrearages, and renew for one year, at $2 00 in advance, and give us one new subscriber, at $2 00, we will give a copy of this $3 00 book.

The new subscribers will also get book.

Big G has given universal satisfaction in the cure of Gonorrhœa and Gleet. I prescribe it and feel safe in recommending it to all sufferers.
